Gary David Blount's Rocky Mountain Fishing Journals: Perpetual Wild Trout Recapture Angling Journal "A Public Fisheries Project" The purpose of this: Perpetual Wild Trout Recapture Angling Journal "A Public Fisheries Project" is to be the initial public Social Media generated "Wild Trout Fisheries" data base site to monitor and publish the variable changes in our "Wild Trout" fisheries for Perpetuity". This is an invitation for you, your friends or your fishing club to participate in conducting recaptures: "Angling Day's" published in all of Gary David Blount Rocky Mountain Fishing Journals. These Rocky Mountain Fishing Journals encompass 35-years and contain over 1,500 - "Angling Day's" documenting the daily "Wild Trout" catch rates, water temperature, water level, water turbidity, air temperature, weather conditions, daily

hatches, stomach analysis from "Wild Trout" landed, "GDB" Custom Flies fished, fly fishing presentations, trout species, trout lengths and geographic location on over 35-different bodies of water in Montana, Wyoming, Yellowstone National Park, Idaho and Washington. This Perpetual cursory research projects objective is to ascertain skilled or professional anglers at blountspublishing@yahoo.com and have them return to each body of water on the precise date, geographic location and time period fished contained in every one of my Rocky Mountain Fishing Journals. Each ascertain skilled or professional angler will document their "Angler Day" using the same format I used in each one of my Rocky Mountain Fishing Journals along with their "Angler Day" photographs in "JPEG" format. Each skilled or professional anglers "Angling Day" written documentation and photographs will be e-mailed to blountspublishing@yahoo.com and I will publish them in Gary David Blount "Yearly" Perpetual Rocky Mountain Fishing Journal. To preview excerpts from each one of Gary David Blount Rocky Mountain Fishing Journals go to books.google.com and to view on You Tube.com in the search bar type Gary David Blount Rocky Mountain Fishing

Journals. Introduction The Yellowstone Drainage supports the largest inland population of native Yellowstone Cutthroat Trout on Earth. The Yellowstone Cutthroat Trout is considered a shared resource in Yellowstone Lake: Grizzly Bears, Black Bears, Bald Eagles Golden Eagles, Pelicans, Osprey, Great Blue Herons, Kingfishers, Gulls, Grebes, Terns, Loons, Mergansers, Mink, Otters, Wolves and Coyotes prey upon Yellowstone Cutthroat Trout. In the Yellowstone drainage 200,000-pounds of Yellowstone Cutthroat Trout are eaten each year by these animals and birds. Yellowstone Lake is the largest fresh water lake in the United States above 7,000-feet, it's altitude is 7,733-feet above sea level. The Yellowstone Lake encompasses 136 square miles, it is 20-miles long, 14-miles wide and has 110-miles of shoreline. Yellowstone Lake is 320-feet deep at its deepest point. The average depth is 139-feet. Yellowstone Cutthroat Trout generally inhabit the upper 60-feet because their food source rarely occurs below that depth. The average surface temperature in August is 60 degrees Fahrenheit; the bottom the temperature never rises above 42 degrees Fahrenheit. The serenity of Yellowstone Lake can suddenly change with afternoon thunderstorms and their accompanying winds. These winds can routinely produce 3-foot waves or larger within minutes on Yellowstone Lake. With water temperatures averaging 41 degrees Fahrenheit you can develop

hypothermia quickly if your vessel capsizes. Fishing season in Yellowstone Lake opens June 15th each year, usually! There are 124-tributaries the Yellowstone Cutthroat Trout use for spawning including the largest tributary, the Yellowstone River. These spawning tributaries open July 15th each year, however some remain closed all year. The use of all lead fishing tackle is band; fisherman must use Non-Toxic alternative products. The West Thumb geyser basin area has intense heat in the lake sediments, which indicate a shallow thermal system underlying this more recent caldera. If the lake level should fall just a few feet, an immense steam (hydrothermal) explosion could occur here. Mary Bay and Indian Pond now show evidence of these craters. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. "No provider or user of an interactive computer service shall be treated as the publisher or speaker of any information provided by another information content provider." Did you know that these twenty-six words are responsible for much of America's multibillion-dollar online industry? What we can and cannot write, say, and do online is based on just one law—a law that protects online services from lawsuits based on user content. Jeff Kosseff exposes the workings of Section 230 of the Communications Decency Act, which has lived mostly in the shadows since its enshrinement in 1996. Because many segments of American society now exist largely online, Kosseff argues that we need to understand and pay attention to what Section 230 really means and how it affects what we like, share, and comment upon every day. The Twenty-Six Words That Created the Internet tells the story of the institutions that flourished as a result of this powerful statute.

It introduces us to those who created the law, those who advocated for it, and those involved in some of the most prominent cases decided under the law. Kosseff assesses the law that has facilitated freedom of online speech, trolling, and much more. His keen eye for the law, combined with his background as an award-winning journalist, demystifies a statute that affects all our lives –for good and for ill. While Section 230 may be imperfect and in need of refinement, Kosseff maintains that it is necessary to foster free speech and innovation. For filings from many of the cases discussed in the book and updates about Section 230, visit jeffkosseff.com New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country.
