The Roman emperor Nero is remembered as the vain and immoral monster who fiddled while Rome burned. He murdered his younger brother and rival to the throne. He then murdered his mother, with whom he may have slept. He killed his pregnant wife in a fit of rage, then castrated and married a young freedman because he resembled her. Without seeking to rehabilitate Nero, Champlin reinterprets his enormities on their own terms, as the self-conscious performances of an imperial actor with a formidable grasp of Roman history and mythology. - Step-by-step solutions to all the practice problems in the Reference Manual Includes authors, titles, subjects. This Student Solutions Manual contains solutions to the odd-numbered exercises in Nonlinear Dynamics and Chaos, second edition. After more than two years, Adobe has finally released a new version of Photoshop Elements for the Mac. Version 6 packs a lot more editing firepower than iPhoto, and this Missing Manual puts every feature into a clear, easy-to-understand context -- something that no other book on Elements does! Photoshop Elements 6 is perfect for scrapbooking, making fancy photo collages, and creating Web galleries. It has lots of new features such as Guided Edit for performing basic editing tasks, an improved Photomerge feature, a handy Quick Selection Tool, and much more. But knowing what to do and when is tricky. Photoshop Elements 6 for Mac: The Missing Manual explains not only how the tools and commands work, but when to use them. With it, you will: Learn to import, organize, and fix photos quickly and easily. Repair and restore old and damaged photos, and retouch any image. Jazz up your pictures with dozens of filters, frames, and special effects. Learn which tools the pros use -- you'll finally understand how layers work! Create collages and photo layout pages for greeting cards and other projects. Get downloadable practice images and try new tricks right away. This full-color guide starts with the simplest functions and progresses to increasingly complex features of Elements. If you're ready for the more sophisticated tools, you can easily jump around to learn specific techniques. As always, author Barbara Brundage lets you know which Elements features work well, which don't, and why -- all with a bit of wit and humor. Don't hesitate: Now that Adobe's outstanding photo editor has been updated for the Mac, dive in with Photoshop Elements 6 for Mac: The Missing Manual right away. This comprehensive manual covers three areas in which system administrators must be proficient to successfully recover data: the structure and operating principles of the most popular file systems, automatic data recovery techniques, and manual recovery techniques used in cases of total data destruction. Data recovery from hard drives and optical storage in Windows, BSD, and Linux file systems is described, as are automatic recovery utilities, manual and automatic recovery of deleted files on ext2/ext3 partitions and NTFS partitions, formatted NTFS partitions and deleted UFS/FFS files, RAID data recovery, media restoration with physical damage, and data loss prevention. If books could kill! Nero Wolfe finds one that can. It's the manuscript of a novel and it's no safer to handle than a king cobra. Before Nero unearths this manuscript he first has to connect the strange death of the girl in the park -- she's a young editor -- with the murder of the man in the law office. Archie nearly sees the third killing. He arrives just two minutes too late. Having conquered the worlds of gastronomy and orchid raising, Nero -- with Archie -- here invades the complex realms of book publishing and the legal profession. - Jacket flap. With Photoshop Elements 6, the most popular photo-editing program on Earth just keeps getting better. It's perfect for scrapbooking, email-ready slideshows, Web galleries, you name it. But knowing what to do and when is tricky. That's why our Missing Manual is the bestselling book on the topic. This fully revised guide explains not only how the tools and commands work, but when to use them. Photoshop Elements 6 is packed with new features. You get a new Quick Edit function, Windows Vista compatibility, improved RAW conversion, a handy Quick Selection Tool, and more. In fact, there's so much to the latest version that it can be quite confusing at times. Photoshop Elements 6: The Missing Manual carefully explains every feature the program has to offer by putting each one into a clear, easy-to-understand context --something no other book does! Learn to import, organize, and fix photos quickly and easily. Repair and restore old and damaged photos, and retouch any image. It is obvious that most lovers find the bedroom activity boring with time probably because they don't have adequate knowledge on other ways to enjoy the bedroom activity, hence, this book explicitly explain how the female gender can spice up their sexual activity in the bedroom. Propelled to power by the age of 17 by an ambitious mother, self-indulgent to the point of criminality, inadequate, paranoid and the perpetrator of heinous crimes including matricide and fratricide, and deposed and killed by 31, Nero is one of Rome's most infamous Emperors. But has history treated him fairly? Or is the popular view of Nero as a capricious and depraved individual a travesty of the truth and a gross injustice to Rome's fifth emperor? This new biography will look at Nero's life with fresh eyes. While showing the man 'warts and all', it also casts a critical eye on the 'libels' which were perpetrated on him, such as claiming he was a madman, many of which were most probably made up to suit the needs of the Flavians, who had overthrown his dynasty. Studie over de Romeinse keizer (37-68) tegen de achtergrond van zijn tijd en over het politieke systeem van die tijd. Iconic sleuth Nero Wolfe returns to track down the murderer of a New York Symphony Orchestra conductor in this Nero Award-winning mystery. Ever since disgraced associate Orrie Cather's suicide, armchair detective Nero Wolfe has relished retirement in his Manhattan brownstone on West Thirty-Fifth Street. Two years after Cather's death, only a visit from Maria Radovich—and the urging of Wolfe's prize assistant, Archie Goodwin—could draw the eccentric and reclusive genius back into business. Maria's uncle, New York Symphony Orchestra conductor Milan Stevens, formerly known as Milos Stefanovic, spent his youth alongside Wolfe as a fellow freedom fighter in the mountains of Montenegro. And now that the maestro has been receiving death threats, Wolfe can't turn his back on the compatriot who once saved his life. Though her uncle has dismissed the menacing letters, Maria fears they're more than the work of a harmless crank. But before Wolfe can attack the case, Stevens is murdered. The accused is the orchestra's lead violinist, whose intimate relationship with Maria hit more than a few sour notes in her uncle's professional circle. But Wolfe knows that when it comes to murder, nothing is so simple—especially when there are so many suspects, from newspaper critics and ex-lovers to an assortment of shady musicians. Now, in this award-winning novel that carries on the great tradition of Rex Stout, the irascible and immovable Nero Wolfe is back in the game, listening for clues and ready to go to war to find a killer. Murder in E Minor is the 48th book in the Nero Wolfe Mysteries, but you may enjoy reading the series in any order.
