Haphazardly Implausible Feb 20 2020 Three unlikely heroes. A world teetering on the edge of war. A mad man who will stop at nothing to gain complete power. Peter Jones, an Aeropilot in the Scottish Royal Air Force, has grown up believing his parents abandoned him. Isidore Thaddeus Reichmann, a famous detective running from his past, is trying to save the last person he cares about. Singur, an inventor who has been forced to hide his real name his whole life or risk being killed, holds an important secret. These

three have never met. They live in different countries and have little in common. Little do they know their lives are about to entwine and that together they have the power to save the world from complete destruction, or destroy everything. Loyalties are questioned. Friendships are betrayed. Trust is shaken. Who do you turn to when the friends you've always relied upon become your worst enemies?

Astrobiology for a General Reader Mar 23 2020 This book implements several outstanding features which are helpful to the general reader. It is organized in the form of a 'Questions and Answers' guide, an approach unique in the field of astrobiology. The questions and answers are linked in a conversation-like style, with each new question following from the previous answer. The book is organized into 20 chapters discussing broad and comprehensive topics, with over 250 questions answered. While the book is written for general readers who are assumed to have an interest in science, though not necessarily an extensive background, it will also be helpful to the beginning student and those who wish to pursue further one or more aspects of the field. It provides the reader with a comprehensive set of 'Further Readings.' After each chapter, resource material is keyed to the individual answers to each question. At the end of the book, full references are given, as well as a guide for how to obtain them. A thorough Index is also provided. The streamlined, condensed, and yet comprehensive

approach provided here is well-suited for stimulating the appetite of many readers for delving more into the fascinating and multi-faceted field of astrobiology.
